

Communicall Vi

What is it?

Communicall Vi is a complete, scalable communication system for group living environments. It provides an integrated platform for the delivery and management of alarm communications, door entry and access control.

Who is it for?

Communicall Vi is suitable for use in a wide range of environments, including sheltered housing and extra care schemes. It supports residents without limiting their independence, and also provides managers with information to deliver effective care.

How does it work?

The Communicall Vi system has been specifically developed to enable flexible telecare in retirement and supported living environments.

Whether incorporated into a new-build or used as a cost-effective upgrade to an existing provision, Communicall Vi meets the needs of today whilst providing a platform for the future.

Each Communicall Vi platform is tailored to the specific requirements of a development and its residents. The core system architecture is a control unit linked to speech modules, which can be configured via a web browser or system control panel. This platform supports a wide range of integrations, telecare sensors and peripherals.

Features

- Simple configuration via System Control Panel (SCP) or Housing Services Portal (HSP)
- On-site and off-site alarm handling
- Progressive door entry and video to TV
- DDA-compliant door panel
- Easy-to-use speech module with 'I'm OK' functionality
- Can operate on legacy infrastructure cabling or latest Cat6 wiring platform
- Remote release key safe
- Broadcast speech
- Fire alarm interface

Benefits

- **Flexible** alarm handling
- **Clear** alarm reporting
- **High quality speech** for natural, easy to understand conversations
- **Safe and secure**
- **Easy to use** and configure
- **Supports independent living** with added security and peace of mind

The Communicall Vi package

Each Communicall Vi installation is tailored to the specific needs of each site and its residents. Our expert team will analyse your requirements and work with you to put the most effective solution in place.

Why Tunstall?

We focus on using the latest digital and mobile technology to enable people to feel safe, secure and independent, giving them the freedom to live the life they choose. Our products combine secure digital connectivity and mobile platforms.

We help you provide...

- **Intelligent, unobtrusive, person-centred care.**
- **Personalised, proactive and predictive services to improve quality of life.**
- **Integrated health, housing and social care.**
